**LÄÄNE-TALLINNA  
KESKHAIGLA**

Tallinn, Mar 4-5, 2011

Dear Colleagues and Friends,

On behalf of the Baltic Society of Phlebology, I have the honour to welcome you to Tallinn for the 4<sup>th</sup> International Master Course in Phlebology. The theme of this event is – actual sclerotherapy technologies for treatment of venous diseases.

This master course continues a tradition established by our society to organize such workshops once a year in every country in Baltics and also in Belorussia.

This two-day workshop is designed for the phlebologists, surgeons and vascular surgeons interested in sclerotherapy of venous disease and will include the latest techniques as well as “tips and tricks” to treat vein problems successfully.

We are delighted to welcome Dr. Renate Murena from Cologne (Germany), who is Germany’s leading physician in sclerotherapy and Dr. Bernhard Partsch from Vienna (Austria), who is one of the world’s pioneers in Ultrasound-guided sclerotherapy.

This is an opportunity to learn the most accurate and updated techniques in sclerotherapy of venous diseases from the world’s foremost physicians in vein care.

All participants will have the opportunity to experience sclerotherapy on patients with different venous pathology during the hands-on session.

The emphasis will be on smaller number of participants and more opportunities for questions and discussions.

I look forward to seeing you during the 4<sup>th</sup> International Master Course in Phlebology in Tallinn.

A handwritten signature in blue ink that reads "U. Maurins". The signature is fluid and cursive.

Uldis Maurins MD, PhD  
President of the Baltic Society of Phlebology
